Application for New Water Service

Date: _____

Service No.: _____

Name of Owner: _____

Address where service is requested: _____

Date service is requested: _____

Billing address of responsible party: _____

The Owner of this property hereby agrees to the following conditions:

1. A meter will not be installed until all charges are paid.
2. Street costs will be five dollars and twenty-five cents(\$5.25) per square ft of payment that must be repaired. The owner will be billed for this in the future after the repairs have been made.
3. The meter setting will be installed approximately one foot inside your property. More-over, service to your property will be made from a water main as selected by the MUC.
4. The meter box, meter, and service line remain the property of the MUC.
5. The owner is responsible for damage to MUC property.
6. Any leakage of water beyond the meter is the responsibility of the owner.
7. Service outside city limits must be approved by City Council and a surcharge of 100% will be applied to the installation charges. Impact fees for outside city limits to be collected by the MUC prior to installation.

Installation Charge (when applicable)

5/8" X 3/4" meter service: \$1500.00 + cost of meter

All larger services: Actual cost of installation, which includes the cost of valves, piping, vault, labor, meter, etc, plus 30% plus the cost of street repairs.

Split services: \$500.00 plus meter & street repairs (irrigation requires DPW permit)

Meter Cost

Prices given by requested specifications.

Meter size requested: _____

Total Charges: _____
